UltraDose Germicidal Hospital Grade Ultrasonic Cleaning Solution

Benefits of a hospital grade disinfectant come together in UltraDose Germicidal Ultrasonic Cleaning Solution Concentrate. UltraDose's dual action makes it ideal for hospitals and clinics where cleanliness and patient safety are top priorities. This solution is designed to clean and disinfect in one step, providing a powerful and effective means of maintaining a sterile environment.

**TO DISINFECT:**
Apply, use solution evenly over surface to be cleaned. Wipe with clean cloth, mop, sponge or paper towel.

**FOR USE AS A CLEANER AND/OR DEODORIZER:**
Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution may be applied with a cloth, mop or brush, or by soaking. To supply the proper dose of solution, remove cap from unit dose chamber and squeeze bottle to fill reservoir. Use at a dilution level of ½ ounce of UltraDose® Germicidal Hospital Grade Ultrasonic Cleaner Concentrate per 1/2 gallon of water or 1 ounce per 1 gallon of water (1:128). Cover cleaning area, or place in ultrasonic tank, and thoroughly rinse before disinfecting.

**CLEANING PROCEDURE:**
Leave surfaces wet for 1 minute. This contact time will not control other common types of viruses and bacteria.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**POISON**

**DANGER**

'do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Keep upright with cap tightly closed.

**STORAGE AND DISPOSAL:**

**DISPOSAL OF INFECTIOUS MATERIAL:**

UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution. For large spills the contaminated area must be flooded with UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution before cleaning, then decontaminated with fresh UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution. For large spills the contaminated area must be flooded with UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution before cleaning, then decontaminated with fresh UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution.

**NON-ULTRASONIC USE:**

UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution is designed to be used in an ultrasonic cleaner or untreated surfaces prior to terminal sterilization at high level disinfectant concentrations in non-sterile environments or as a cleaner and disinfectant in health care settings or other settings in which there is an expected or known risk of blood or body fluid exposure. UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution contains no surfactants and cleans inanimate, non-porous instrument and appliance surfaces. UltraDose Germicidal Hospital Grade Ultrasonic Cleaner Concentrate solution is designed to be used in an ultrasonic cleaner or untreated surfaces prior to terminal sterilization at high level disinfectant concentrations in non-sterile environments or as a cleaner and disinfectant in health care settings or other settings in which there is an expected or known risk of blood or body fluid exposure.
